

YET ANOTHER #BIKELINC SUCCESS STORY

On Thursday 19 December 2019 a thief has entered a Wembley carport and cut the bike lock which secured two bicycles, and made off with them.

On Friday 24 January 2020, police were called regarding a suspicious person sighted on Herdsman Parade, who was seen entering people's cars. Police attended and questioned the individual regarding the items in his possession. Also discovered with the suspect was a GIANT Sedona AX mountain-bicycle which he said was his. The suspect claimed that he purchased the bicycle legitimately from Gumtree, three months earlier. Police used the Bikelinc.com.au website which revealed that bicycle had been reported 'lost or stolen'. Police were able to discount his 'stories' and he was arrested.

Police recently returned the bike back to the happy bike owner. Unfortunately, one is still outstanding. Luckily, they recorded the bike serial on Bikelinc and this allowed police to seize this bike immediately.

Thanks to Crime Stoppers BIKELINC, WA Police now a timely means to quickly obtain the necessary information in which to arrest offenders and return bikes back to their legitimate owners.
